THE SAINT JOHN'S BIBLE

The Saint John's Bible has been commissioned by Saint John's Abbey and University and is being executed by Donald Jackson, Senior Scribe to Her Majesty Queen Elizabeth's Crown Office, along with a collaborative team of scribes and artists.

This is the first illuminated, handwritten Bible of monumental size to be commissioned by a Benedictine Monastery in more than 500 years. All 73 books from the Old and New Testaments using the New Revised Standard Version will be presented in seven volumes of approximately 1,150 pages.

THE HERITAGE EDITION

The Saint John's Bible Heritage Edition is a timeless gift of sacred art. Its breathtaking beauty offers hope today and will inspire future generations for centuries to come. While the original manuscript will eventually reside at Saint John's University, this fine art version has been created to bring a source of hope to people around the world.

An extension of the original *Saint John's Bible*, the Heritage Edition is the only full-sized, limited edition, signed and numbered fine art reproduction that will ever be produced. The Heritage Edition features the exquisite calligraphy, vibrant imagery and stunning gold and silver illuminations inspired by the original. With Donald Jackson as the creative director, the Heritage Edition is a work of art in its own right and each volume includes Jackson's signature and certificate of authenticity. www.saintjohnsbible.org.
